# ACDP is 100% against Tshwane Merger

The ACDP is a member of the Metsweding Demarcation Forum – a forum of civic and political organizations from across the spectrum. The forum was established in 2009 by the community of Metsweding in response to the unconstitutional merger of Metsweding to Tshwane. We say it's unconstitutional because neither the communities of Tshwane or Metsweding were consulted in any meaningful way and the results of the merger will be an effectively inaccessible (for most of us) centralized government that will reduce the ability of the man on the street to participate meaningfully in government processes. The ACDP believes in a federal system that allows for original constitutional powers to the lowest possible level – ie. Smaller, more accessible municipalities. The current route we're going will result in centralization – more power in less hands which leaves it more vulnerable to abuse.

## So, how will it affect ME?

- Higher rates, taxes and service charges for all;
- If you are a smallholder, and you are not farming, your rates will go up exponentially, from Agricultural/Rural to Residential (+/-400%).
- Fewer Wards – from 20 to 8 Mega-Wards; and Fewer Councilors – from 33 to 8 (effectively taking away our chances for Participatory Democracy while minimizing access to political representation and choice, all anti-democratic and against the Constitution);
- Distant, effectively inaccessible large centralized bureaucracy for most of us.
- Local job creation and economic development plans centralized to Tshwane resulting in less jobs for local educated and skilled, as well as unskilled youth,
- Red Ants & Metro Police as enforcers;
