CHRYSA
PREMIUM FLOWER CARE

CHRYSAL PROFESSIONAL 2

Extends cut flower 'bucket' store life

Specially formulated to condition and preserve all types of cut flowers and foliage after harvesting, during processing, transport, distribution and sales phases without compromising condition and quality.

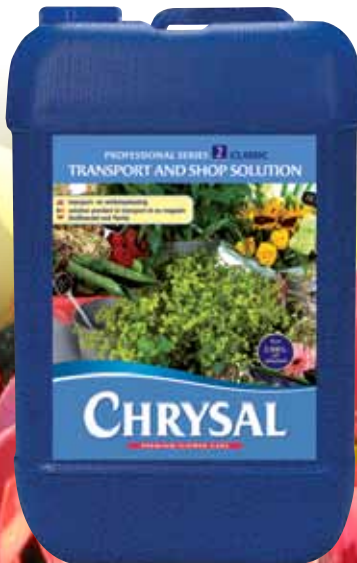

- contains sufficient nutrients to maintain natural bud progression without stimulating full development of flower prior to arranging
- de-stresses, re-hydrates and revitalizes dry packed flowers while in transit
- combats bacteria, keeps stems healthy
- stimulates water up take, prevents 'bent neck'
- extends sales periods, reduces waste, increases profit
- suitable in cold storage conditions
- effective in all water types
- water saving, Professional 2 lasts up to seven days
- no daily bucket cleaning and refilling necessary
- restock buckets without having to change the water
- visual or instrumental dosing control possible
- environment friendly, no discharge restrictions

Easy to use T-Bag

Dissolve bag in 2 litres of water

Also available

- 10 Litre Drum for 1000 litres of solution
- 25 Litre Drum for 2500 litres of solution
- 200 Litre Drum for 20 000 litres of solution

CHRYSAL PROFESSIONAL 3

Essential vase/floral foam solution for all flower arrangements

Proven formula that transforms tap water to vase water, adjusting the pH and enabling water and nutrients to be absorbed efficiently through the stems for healthy flowers to open and fulfill their role of appreciation and beauty.

- contains nutrients to encourage full flower development
- maintains true colour and reduces flowers fading
- prolongs flower arrangements by up to 100%
- combats bacteria, keeps stems healthy, prevents odours
- changing vase water or re-cutting stems not necessary
- dissolves easily in all water types
- ideal for arranging in clear glass vases
- increases customer satisfaction, reduces customer claims
- adds value flower arrangements, bouquets and bunches
- environment friendly, no discharge restrictions
- perfect for use in conjunction with floral foam
