Emails through mailing list system	Free
SMS's through Bulk SMS system	R0,22+VAT

Traffic & Data (space) allowance per website – currently there are no official limits on the amount of traffic (or data) that clients may have on their websites and/or email. The agreement says the traffic and data must be “within reason”. Seeing that data and traffic charges are continuously dropping, we do not specify a limit at this stage; if however, a client’s website becomes extremely large and/or busy then we will negotiate a new reasonable hosting charge with the client and/or put the website on an overseas server (which is cheaper and slower [until the new undersea cable is installed]).

*** Note on cancelled or postponed meetings:**

Clients must please note that Kwikwap Agents set aside a few hours to see them, so if a client cancels within 24 hours of the meeting it often leaves the Agent with insufficient time to fill the hours. Therefore, meetings should be cancelled or postponed more than 24 hours in advance to qualify for the Early Bird Special otherwise the full fee is payable.

MORE DETAILS on Product levels:

LEVEL / PACKAGE 1 PRODUCT

Mobile and Normal Website on the Kwikwap system

R59 +VAT per month

This gives a client a website with an address such as www.kwikwap.co.za/abc together with full functionality of the whole Kwikwap system. It does NOT allow for a unique domain name such as www.yourname.co.za. If one keeps in mind that 86% of traffic comes via search engines, then the web address as such does not matter that much.

Here is an example of the level 1 product:

Cardinal Tours

More Great Deals

Washed by the Atlantic and Indian Oceans, South Africa is a country of contrasting people, scenery and wild life, making it one of the most diverse countries a tourist can hope to visit. Stretching along pristine beaches, stunning mountain ranges, sweltering deserts, vast savannas, bustling cities and quaint and quiet rural villages, South Africa offers the discerning traveller

The web address is an extension of the Kwikwap address.

Your address is always e.g. www.kwikwap.co.za/abc

LEVEL / PACKAGE 2 PRODUCT

Dedicated domain [which is forwarded], mobi & normal website & Kwikwap system

**R99 +VAT
per month**

This option allows a **client to have his own domain e.g. www.yourname.co.za or www.myname.mobi** which he/she can advertise and put on business cards as it just looks a little bit better than an address with an extension as in option 1 above.

With this option a “redirect” is put on the domain which will immediately redirect people that visit that dedicated domain to the clients Kwikwap address (e.g. www.kwikwap.co.za/abc). **The benefit of this is that your advertised web address is nicer.** As with option 1, you have the benefit of all the features of the Kwikwap system.

This option also gives you one email address on your domain if it is hosted with Kwikwap.

Clients can also purchase additional email accounts as per section 4 below.

A visitor will type in the web address into his web browser and then press “Enter”:

And then one is immediately taken to the Kwikwap address and the address in the “address bar” changes:

LEVEL / PACKAGE 3 PRODUCT

Full dedicated domain [NOT forwarded], mobi & normal website & Kwikwap system

**R150 +VAT
per month**

This is similar to Option 2 above except the visitor is not “forwarded” but instead he always stays on the same dedicated address as he moves through the various pages of the website. See for example www.theclayclub.co.za ; it is a “full/ normal” website that is running on its own domain with the full benefits of the Kwikwap system. A Visitor never leaves the clients dedicated web address (as seen in the address bar of the internet browser, see picture below to see what the “Address bar” is).

This option also gives you one email address on your domain if it is hosted with Kwikwap.

Clients can also purchase additional email accounts as per section 4 below.

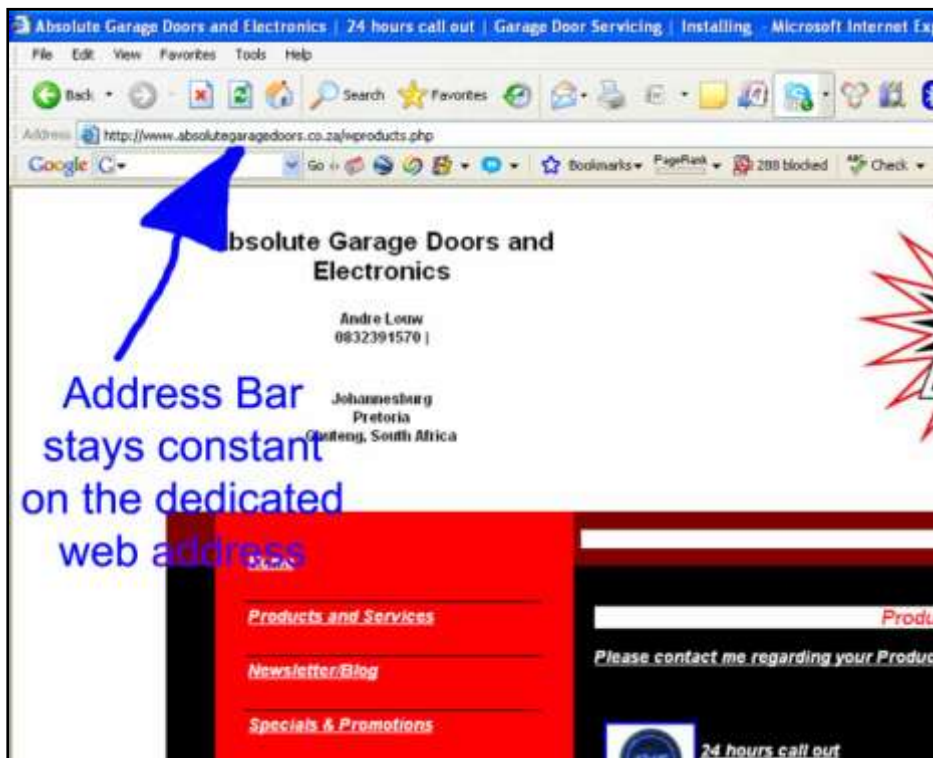

This package has the following **bonus / free add-on** feature included:

- **Online shop / Online ordering / Online Quotations** (including credit card payment facilities)

Herewith a sample of a website where the web address never shows the Kwikwap address; it stays on the same “dedicated address” (in this case

www.absolutegaragedoors.co.za) throughout your browsing session.

4. Extra Email accounts

The cost of extra email accounts works on a sliding scale:

- 1 st extra email account	R25+VAT per month
- 2 nd extra email account	R20+VAT per month
- 3 rd and more email accounts	R15+VAT per month each

Two important notes:

1. All packages include a live report that tells you which search terms brought visitors to your site, how many visits you had from which search engines and from which countries your web visitors come from.
2. The R150 products perform slightly better on the search engines; if it is very important for you to be on the first page then choose the R150 product.
