CHAPTER 2 SUSTAINABLE FOREST MANAGEMENT

The purpose of this Chapter is to promote the sustainable management of forests.

Part 1 Management

Part 1 lists principles of sustainable forest management, which apply to all official decisions affecting forests, whether in terms of this Act or other laws. The Minister is given the power to-
* *set criteria, indicators and standards for assessing and enforcing sustainable forest management; and*
* *create incentives to manage forests sustainably,*
on the advice of the Committee for Sustainable Forest Management.

3. Principles to guide decisions affecting forests

- (1) The principles set out in subsection (3) must be considered and applied in a balanced way-
 - (a) in the exercise of any power or the performance of any duty in terms of this Act;
 - (b) in the development and implementation of government policies affecting forests;
 - (c) in the exercise of any power or the performance of any duty in terms of any other legislation where the exercise of that power or the performance of that duty will impact on a natural forest or woodland;
 - (d) in the issuing of a license or other authorisation relating to the use of water for afforestation or forestry in terms of section 39(1) or 40(1) of the National Water Act, 1998; and
 - (e) by any person required in terms of any legislation to carry out an environmental impact assessment in respect of any activity which will or may have an effect on natural forests or woodlands.
- (2) An organ of State applying these principles must-
 - (a) take into account the differences between natural forests, woodlands and plantations;
 - (b) recognise that conservation of biological diversity within plantations should be promoted in a way which is consistent with the primary economic purpose for which the plantation was established;
 - (c) only apply those principles which it considers relevant to the decision or action which is contemplated; and
 - (d) give such weight to each principle as it considers appropriate.
- (3) The principles are that-
 - (a) natural forests must not be destroyed save in exceptional circumstances where, in the opinion of the Minister, a proposed new land use is preferable in terms of its economic, social or environmental benefits;
 - (b) a minimum area of each woodland type should be preserved; and
 - (c) forests must be developed and managed so as to-
 - (i) conserve biological diversity, ecosystems and habitats;
 - (ii) sustain the potential yield of their economic, social and environmental benefits;
 - (iii) promote the fair distribution of their economic, social and environmental benefits;
 - (iv) promote their health and vitality;

 - (b) create or promote certification programmes and other incentives to encourage sustainable forest management; on the advice of the Committee for Sustainable Forest Management.
- (3) The Minister must-
 - (a) publish the criteria, indicators and standards in the form of regulations made under section 53(2)(b);
 - (b) identify clearly where the breach of a standard may be an offense.
- (4) The Minister may publish the criteria, indicators and standards in such other media as he or she considers appropriate.
- (5) Specific regional, economic, social and environmental conditions must be taken into account in determining criteria, indicators and standards.
- (6) Criteria and indicators may include, but are not limited to, those for determining-
 - (a) the level of maintenance and development of-
 - (i) forest resources;
 - (ii) biological diversity in forests;
 - (iii) the health and vitality of forests;

 - (v) the protective and environmental functions of forests; and
 - (vi) the social functions of forests;
 - (b) the level of provision of socio-economic benefits; and
 - (c) the status and appropriateness of the policy and the legislative and institutional framework for forest management.

 - (c) may apply to all or to specific forest types;
 - (d) bind all owners of land on which there are forests in the area and of the type to which the standards apply;
 - (e) bind any other persons to whom they are expressly made applicable.
- (8) Where the breach of a particular standard may be an offense, a forest officer may inform an owner who is in

breach of that standard by written notice of-

- (a) the nature of the breach;
 - (b) the steps which the owner must take to remedy the breach; and
 - (c) the period within which he or she must do so.
- (9) The period laid down in the notice may be extended by the Minister for good reason.
