- [Ecommerce Online Shop](#) (visitors can order and pay online) Improve your cash flow!

How it works: (Credit Card and EFT payment facility / Creates Orders & Quotations) *
All transactions are recorded in your **web portal**. **Access to Credit Card gateways like, Paypal, Monsterpay, PayFast, EFT. Very easy to setup a comprehensive online shop.**

- [Estate Agency Free Property listing](#)

How it works:

Online clients can upload details of the house / flat / office for sale with up to 6 pictures. Website owner on approval can then publish this listing on the website.

This module allows an Estate Agent to add up to 999 properties (with six (6) pictures per property) to their website, with a quick and easy uploading facility.

(NOTE: the sms's that will be sent to potential clients will be charged at 0.25c per SMS)

Once enabled you will be assigned a unique Estate Agent Code. Each property is assigned a unique Property Code based off your Estate Agent Code. This unique Property Code can be SMS'd to 37995 and an SMS will be sent to the sender with a link to the Property Listing, matching the unique Property Code, on your website. Standard SMS rates, including free SMS's, apply.

For example, if your assigned Estate Agent Code is AX and your Property Code is AX21, then clients must SMS AX21 to 37995 and they will receive a link to that property on your website. Estate Agents can e.g. put a sticker with the following message on their boards : "SMS the code AX21 to 37995 to receive more info".

This Module is free of charge

- [B&B & Hotels & Tour Operators/Guides \(Online Booking System\)](#)

How it works:

Here you can add a menu item to your website called "Booking Enquiry" which enables an accommodation / tour enquiry form. The user will fill in his/her details and the completed accommodation / tour enquiry form will then be emailed to your email address. The client also receives a copy of this email. You can also instruct the website system to send the website owner an SMS that a booking has been made. All bookings are recorded in your **web portal**.

This module is free of charge.

- [Cars](#) / [Bikes](#) / [Boats](#) / [Caravans](#) Dealer's (List your show room online)

How it works:

Online clients can upload car for sale with up to 6 pictures. Website owner on approval can then publish this car on the website.

This module allows an Car / Bike / Boats / Caravans Dealer to add up to 999 vehicles (with six (6) pictures per vehicle) to their website, with a quick and easy uploading facility.

- [FAQ](#) Frequently asked questions;

How it works:

Visitors can ask questions on your website. Website owner will get an email that a question has been asked on the website. You can then login to the webportal screen the faq than answer it and publish it on the website. Visitor will then get an email informing that the faq has been answered. Good for SEO

This Module is free of charge

- [COMMUNITY POLICING FORUM](#)

How it works:

(Great For Neighbourhood Watches Security Companies etc.)

The CPF module allows registered CPF members to send instant bulk SMS's to other registered members of your community (e.g. suspicious activities etc). You may add any member of your existing Mailing List to your CPF list (community).

This module is free but you will need to pay for each SMS sent by your community @ 0.25c each.

A member that is part of the community simply SMS's the "CPF code" followed by the message to "37995" and we will forward the particular message to everyone on the community list. For example, a member will sms the following: "abc Watch out for three men with orange overalls running down Menlyn road". The abc is for example your CPF code. The total message may not exceed 160 characters.

Because this system can quickly run up a large SMS bill, we will require that you purchase additional SMS's when your SMS count has reached 1,000 at any stage during the month.

This Module is free of charge
