

What skills would be required to start this opportunity?

You need basic computer skills (not advanced) in order to start your own business. We have found that the people that are successful in starting their own business with this business opportunity have the following personal attributes:

1. Determined to be successful
2. Can work systematic and focused
3. Are a peoples person
4. Are not shy to ask people if you can help them with their website

Does one have to be a web site designer to learn your system?

No absolutely not! our system is so easy and user friendly that we have school kids who operate it. It is even easier than using Facebook!

How do I become a consultant?

You basically need to pay the R2,500 and we will train you and teach you all that you need to know about website design.

Can you take your R2500 when I start having an income?

Unfortunately not. However what you can do is get one new client and we will use that client's money to train you.

How long does it take to start working?

The training takes about 3-5 hours and you can start immediately after training. Yes, our program is so easy to understand that we can make you a webmaster in only 3-5 hours!

Can I work anywhere in South Africa?

Yes you can start your own Kwikwap business anywhere in South Africa or the world in fact

Once I am a consultant, do you advertise my services as part of the monthly fee I pay or do I need to advertise my own services in the area that I work?

You need to do your own advertising but once you have proven yourself we will send you leads in your area

Can Clients edit their websites?

Yes, clients can edit and manage their own websites. Once you, as the consultant, has trained them they can continue on their own. You may get the odd call asking for slight assistance, but the idea is that the client does it themselves.

Will I be responsible for all my own clients or do you refer some to the consultants?

Yes, you are mostly responsible to find your own clients. However, once you have proven yourself, we will send you leads

Do I have to do training?

Yes, we prefer that you do the training however there have been some consultants who manage just fine to train themselves.

Is this a Joomla?

No, Kwikwap does not use Joomla to design their websites. Kwikwap uses their own web design software. The main focus of Kwikwap is to make it as easy as possible together with very comprehensive personal support and electronic help functions.

Why do I have to pay a monthly fee for this business opportunity?

We maintain a massive system with which you run your business. We also don't want "hanger onners". The fee goes towards the development cost of the system and we also see the fee (which is actually quite a small agency fee compared to other agencies) as a bit of a commitment fee. We are offering a wonderful business opportunity and we don't ask for much. In any case, where in the world are you going to get trained to be a webmaster for only R2,500? and who is going to pay you a 50% commission?

Would I earn money enough to stop looking for employment?

It depends on yourself. You can easily earn R20,000 in your first month (after all that is only 8 websites)

When can I start working as a consultant and what sort of consulting will I be doing?

You can start working immediately after you have finished your training (cost R2,500). You will be selling and implementing websites for clients.

If I do the training and don't find that it will be in my interest, will I still have to pay the R2500

You can only do the training after you have paid the R2,500. However, you are welcome to view the system beforehand.

DO I NEED A LAPTOP

A laptop can come in handy but it is not essential. Most websites are in any case designed on the clients computer (so that they can see it is not a miracle that is happening on some weirdos computer)

Does it have to be 1 website a day or could it be more or less?

You can design as many websites you like, whether it is 5 per day or one website per week.

Where are you situated and how long is your training?

We are all over the country . The training takes between 3 and 5 hours

By when can I start earning the cash?

Immediately after you walk out of the training session!

CAN YOU TAKE YOUR R2.500 WHEN I START HAVING AN INCOME?

The only way that this will work is if you bring a client to the table.

Is there an evidence or proof of viability in this business?

Yes we have plenty of proof that this is a viable business. We have thousands of satisfied clients ... do yourself a favour and search on Google for "kwikwap" and you will see there are hundreds of thousands of results. These results would not have appeared if this business was not viable.

Does the money that the client gets charged for creation of the website go to the consultant and are there set charges for website design?

No, the R2,500 fee is for the Creation and Design of the website. That R2,500 is paid to the Consultant and the Consultant gets all that money.

How can I learn to make myself a website?

Fill in this form on my Home Page www.kwikwap2.co.za so that I can contact you to explain it to you

How do I know this is not a scam, get rich quick scheme.

Our business model is simple ... I train you to design websites (the training costs R2,500), you get clients and they pay you directly (R2,500 per website). If you want to see the system in action before you pay then complete the form on my Home Page www.kwikwap2.co.za and I will meet up with you and show you how easy it is to design websites with Kwikwap. You can decide after the meeting whether you want to start your own business for only R2,500. Do a search on the internet on Kwikwap and see that we are not **Mickey Mouse!**

How much does it cost to be a consultant?

It costs R2,500 to become a Kwikwap Consultant. This fee includes training on how to start your own Kwikwap business

Can I learn enough to make this a full time carrier?

Yes you certainly can. If you focus on doing one new client each day, you can earn R50,000 per month (ie R2,500 x 20 days). But let's say you start off slowly and do one website per week, you will still earn R10,000 per month all the while building up a passive recurring income.

Can I earn enough to make this a full time career?

Yes, of course, if you do one website every second day you can earn R25,000 per month

Interested!!
